### **A JORANE EXCLUSIVE AT DIGIMART 2005**

#### **« Particules »**

A special performance in « audio-vision » at *The Global Digital Distribution Summit*

**Montreal, September 19, 2005\_** DIGIMART is proud to present in collaboration with ARTV, an exclusive presentation by Quebec artist **JORANE**, « *Particules* », at *The Global Digital Distribution Summit* that will take place September 21 - 24 at Ex-Centris in Montreal.

**Connect to the digital revolution!** Be part of *The Global Digital Distribution Summit*, a landmark event that will bring together, for the first time in Montreal, close to two hundred professionals, and more than thirty international digital pioneers.

Sheila de La Varende underlines: "With « *Particules* », an original presentation created exclusively for DIGIMART, **JORANE** will not only treat your ears to a delightful moment of listening, but will offer a feast for all your senses. « *Particules* », unorthodox in its musical approach, is an exploration of multiple sounds and visual moods where technology is used to feed artistic creation. A film for the ears, a sound for the eyes... which we are happy to offer to all our distinguished guests."

Quebec's own and internationally renowned cellist-songstress **JORANE** is a unique performer. Recorded or on stage her work has been described as edgy, experimental and completely captivating. Whether performing on her own, with a rock band or a full symphony she creates powerful soundscapes. In a visually insistent world, **JORANE**'s sweet sound will entice you to close your eyes and listen with your whole body. Her voice and cello intricately melt intimate harmonies where the words are not nearly as important as the auditory shape of them.

Register now! Delegate passes give access to all the summits activities including cocktails and festive evenings.
